A Daily Summary of Motor Carrier Applications and of Decisions and Notices Issued by the Federal Motor Carrier Safety Administration

DECISIONS AND NOTICES RELEASED June 21, 2004 -- 10:30 AM

NOTICE

The Federal Motor Carrier Safety Administration (FMCSA) is notifying the public that the timeframe required to revoke a carrier's operating authority for failing to have sufficient levels of insurance on file is being reduced. The current process takes at least 66 days. The new 33 day process will only allow a carrier to hold operating authority without insurance reflected on our Licensing and Insurance database for up to three (3) days. Revocation decisions will be tied to our enforcement program which will focus on the operations of uninsured carriers. This improvement will further ensure that the public is adequately protected in case of a motor carrier crash. Accordingly, we are adopting the following procedure for revocation of authority: 1) The first notice will go out three (3) days after FMCSA receives notification from the insurance company that the carrier's policy will be cancelled in 30 days. This notification informs the carrier that it must provide evidence that it is in full compliance with FMCSA's insurance regulations within 30 days. 2) If the carrier has not complied with FMCSA's insurance requirements after 30 days, a final decision revoking the operating authority will be issued.
